

## REACH Information No. 3

September 22, 2008

Periodical information on REACH activities for Collano Group customers

---

### **Preregistration completed and/or confirmed by our suppliers**

As mentioned in our Information Letter No. 2, the Collano Group has preregistered all raw materials. This applies to all materials for which the suppliers submitted the necessary technical data. The preregistration process was completed at the end of August.

For those raw materials whose composition was not disclosed for confidentiality reasons, we have the confirmations from the suppliers that they will all be preregistered as well. This also applies to suppliers outside the EU.

### **Review and further procedures**

The preregistration period expires on November 30, 2008. On January 1, 2009, the European Chemicals Agency (ECHA) will begin to publish the list of preregistered products. Starting at the same time, we will review the preregistrations promised by our suppliers, and we shall coordinate with them our contribution to preparing the registration documents.

### **Delivery continuity confirmed**

We would like to reaffirm our declaration that on the basis of the steps we have undertaken, our customers can count on the Collano Group for the continued availability of all of our products within the EU.

For further information, please do not hesitate to contact me.

Best regards,

Dr. Josef Peter  
Manager of Quality, Safety and Environment
